Variety **FASHION CASSIS**
Sparkling harmony of Rosé and natural flavours

Origin **Spain**

Made from vines grown on light clay-limestone soils, the grapes are harvested in Spain and partly handpicked. Then, every step of the vinification is ruled at low temperature to keep all the potential and freshness of the wines.

Production **France**

After a traditional wine-making process, sparkling wines are produced in our cellars of Landiras near Bordeaux. Our recipe contains only natural flavours to offer an authentic fruit taste. Sparkle comes from carbonation according to the « frizzante » method.
