Variety FASHION STRAWBERRY & RASPBERRY

Sparkling harmony of rosé wine and natural flavours

Terroir & Vinification

From vineyards slightly under clay-limestone soils, the grapes are harvested at fair ripeness and in partially manual work. The steps for winemaking happens under low temperatures to keep all potential of freshness from the wines.

Production

After a traditional wine-making process, sparkling wines are produced in our cellars of Landiras near Bordeaux. Our recipe contains only natural flavours to offer an authentic fruit taste. Sparkle comes from carbonation according to the « frizzante » method.
